

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF THE SOUTHERN MADISON)
WATER DISTRICT FOR APPROVAL OF THE NEW) CASE NO. 10188
WATER MAIN EXTENSION POLICY)

O R D E R

On March 7, 1988, Southern Madison Water District ("District") filed a proposed amendment to its regulations for water main extensions that require contributions of extension footage by both the District and the customers of interest in the extension. The amendment defines the District's contribution of extension footage as 50 feet multiplied by the number of connected customers; the customer's contribution as the total extension footage minus the footage contributed by the District. Upon connection of a new customer to the completed extension the new customer's and the existing customer's contributions will be made equal by an allocated refund of the new customer's contribution and the District's contribution of 50 feet for the new customer. This equalizing allocation of new customer's and District's contributions will be terminated upon expiration of the refund period defined in the proposed amendment.

The District's filing does not meet the requirements of 807 KAR 5:011, Sections 3, 6 and 10. Furthermore, additional information is needed for an adequate and proper consideration of the proposed amendment.

IT IS THEREFORE ORDERED that District shall file an original and seven copies of the following information with the Commission on or before May 30, 1988.

1. Provide a filing of the amended regulation in accordance with the requirements of 807 KAR 5:011.

2. Provide a listing of main extensions made in accordance with 807 KAR 5:066, Section 12(2) in which the 10-year refund period has not expired.

3. Provide a listing of extensions now being considered by District and a statement of current status or possibility for construction of said extensions under the provisions of 807 KAR 5:066, Section 12(4). The Commission understands that possibilities for construction are dependent upon initiatives of the applicants and may not be easy to determine.

If the above information cannot be provided by May 30, 1988, District should submit a motion for an extension of time stating the reason a delay is necessary and include a date by which it will be furnished. Such motion will be considered by the Commission.

Done at Frankfort, Kentucky, this 5th day of May, 1988.

PUBLIC SERVICE COMMISSION

For the Commission
